## EXPERIENCE

---

Walmart Bentonville, AR

*Software Engineer 1*

*Sept 2019 – Present*

*Associate Software Engineer*

*Oct 2018 – Sept 2019*

- Developed a support bot using React and NodeJS, available to approximately 1.5 million users, resulting in an overall decrease in support tickets and increase in associate productivity.
- Architected and deployed a feedback module built for both code-in and as a Chrome extension, giving associates a voice on what products they prefer, and features they would like to see.
- Migrated existing applications from on-prem hosting to Azure Cloud Services.
- Mentored junior developers for career and skill growth.

Hutchison Web Development, LLC

*Bentonville, AR*

*Owner*

*Nov 2019 – Present*

- Custom tailored web applications and user interfaces for clients, ranging from e-commerce websites to electron desktop applications.
- Collaborated with clients during the development process to ensure finished products meet expectations.

Southern Reprographics, Inc.

*Bentonville, AR*

*Production Manager / File manager*

*Jan 2011 – Oct 2018*

- Expedited orders via email, phone calls, as well as in person while maintaining workflow.
- Electronically filed bidding jobs in the area for general and subcontractors to view and distribute using proprietary web-based programming.
